Continuous Improvement

Central to the actions of continuous school improvement is the use of data to make informed decisions. This data profile was created to organize data that schools and districts may use to make those school improvement decisions. The profile is an effort to save users time in formulating the data by providing a ready-made set of reports that are intended to inform the school improvement process on a number of data topics and to match the data use curriculum being disseminated around the state. This profile will continue to be updated and improved as feedback is received.
